

IAG I-Line Rear D Pillar Audio Cover For 2021+ Ford Bronco

IAG-ACC-F3158 D Pillar Audio Cover for 6.5" For 2021+ Ford Bronco

Congratulations on the purchase of your IAG I-Line Rear D Pillar Audio Cover, and thank you for choosing IAG Off Road! These instructions are intended for users with basic mechanical skills. Professional installation is not required.

Installation video can be found on our website.

Tools needed: Torx Plus 30 socket and ratchet

Step 1

Remove TP30 Bolt from the drivers side rear speaker.

Step 2

Remove the two TP30 Bolts from the speaker bracket.

Step 3

Remove the speaker pod. To disengage the clip, use even pressure and pull the speaker pod away from the outside roll bar.

Step 4

Remove the speaker cover. Using a plastic pry tool, separate the speaker cover from the pod.

Step 4 pt. 2

Step 5

Unplug the connector from the speaker, and remove the speaker pod.

Step 6

Prepare the new Speaker Pod and Speaker Wiring Harness. Route the wiring harness through the hole in the speaker pod as illustrated.

Step 7

Connect the speaker harness to the speaker.

Use the recommended connector for the speaker. In this case spade connectors are used.

(Speakers sold separately)

Step 7 pt.2

Install speaker into pod. Secure using provided screws.

(Two Door Broncos Only)

On 2 door models, replace the factory mounting brackets with the provided brackets.

Step 8

Remove the retention clip from the stock speaker pod.

Transfer the clip to the same position on the new speaker pod.

Step 9

Connect the new speaker pod to the vehicle wiring harness.

Ensure the speaker wiring is tucked into the channels of the speaker pod.

Step 10

Install the new speaker cover.

Ensure that the wiring is not pinched where the cover meets the pod.

Step 11

Install the new speaker pod.
Install and tighten the factory Torx bolts.

Step 12

Install and tighten the factory Torx bolt.

Step 13

Repeat for other side.
