Congratulations on the purchase of your Stealth Light Bar, and thank you for choosing IAG Off Road! These instructions are intended for users with basic mechanical skills. Professional installation is not required.

Product includes:

1 IAG Mini Light Bar

2 Light Bar Brackets

3 (X4) 12mm Nuts

4 (X4) Torx 45 Bolts

5 (X2) 10mm Bolts
(License Plate Bolts)

Tools Needed:

Torx 45 Wrench (Provided)

12mm Socket or Wrench

10mm Socket or Wrench

Bull Bar Compatibility:

If installing with IAG OE Bull Bar, install the light bar brackets on top of the Bull Bar.

Step 1:

Install the Left Side Bracket onto the driver side IAG Bumper Plate with provided T45 bolts, do not tighten. Repeat process for Right Side Bracket.

Step 2:

Install the the Light Mount Bar onto the Brackets with provided 12mm nuts, do not tighten.

Step 3:

Adjust the Light Mount Bar with the slotted holes to fit desired light bar. Once position is set tighten all hardware.
